WWW.DIGITALPENANG.MY

Digital Penang is a government-linked company owned by the State of Penang, which began operations in April 2020 to accelerate efforts to capture opportunities in the digital economy and promote a digitally engaged society.

To bring to life the Penang2030 vision of a family-focused, green and Smart State, the journey of transformation will focus on driving digital adoption amongst the community, more data-driven governance, a diverse talent pool for entrepreneurship and investment, and a resilient digital infrastructure to sustain a liveable environment.

4 pillars driving the digitalisation of Penang—**economy, society, government, and foundation**

ECONOMY

Digital Penang drives the digitalisation of Penang by fostering the growth of technology startups and creative industries, enabling them to access global markets.

Through targeted Startup initiatives like Ideation and Accelerator programs, market access support, and partnerships with investors and ecosystem collaborators, startups are empowered at every stage. Additionally, Digital Penang strengthens Micro, Small, and Medium Enterprises (MSMEs) by offering branding and digital skill training, guided by experienced mentors. These efforts foster innovation, attract significant investments, and enhance Penang's competitiveness on the international stage while creating high-quality jobs.

SOCIETY

Digital Penang actively drives the digitalisation of Penang by engaging the public in digital transformation through campaigns, events, and classes in collaboration with government and private sectors.

Key initiatives include DahDigital, offering engaging modules for effortless mobile app learning; DahDerma, a platform simplifying fundraising and volunteer recruitment; and Digital Tracker, providing real-time monitoring of chariots and processions during Penang festivals for improved coordination and safety. These efforts connect communities, enhance digital literacy, and promote inclusive participation in Penang's digital journey.

GOVERNMENT

Digital Penang drives the digitalisation of Penang through its Digital Government pillar, transforming public services to be more efficient, transparent, and citizen-centric. By digitizing processes, the initiative enhances service delivery, making it faster, more responsive, and aligned with public needs. Key programs include MyKADUN, which improves services at KADUN centers for Penangites and residents, and the Penang2030 Dashboard, [enabling real-time tracking of Penang2030's progress and developments](#). These efforts modernize governance and empower communities for a smarter, digitally connected future.

FOUNDATION

Digital Penang strengthens the digitalisation of Penang by building a strong foundation in digital literacy and infrastructure, equipping the community with essential skills and access to advanced technology. Initiatives like 42 Penang, [a tuition-free computer science program in George Town, empower future talent](#); Penang Internet Exchange (PIX) enhances digital connectivity as [a central hub for internet traffic within the state](#); and CD2 Penang revitalizes the urban core, [transforming it into a vibrant business district](#). These programs prepare the next generation to thrive in an increasingly digital world while fostering innovation and connectivity.

北京国际交流协会可持续发展专业委员会

Beijing International Exchange Association Sustainable Development Committee

WWW.C-SDC.COM

Beijing International Exchange Association Sustainable Development Committee (SDC) was established in 2005 and is a non-profit social organization officially registered with the Beijing Civil Affairs Bureau.

SDC is dedicated to promoting dialogue, research, and practice in the field of sustainable development. Through international exchanges and cooperation in areas such as eco-communities, youth innovation and entrepreneurship, cultural creativity, and eco-technology, SDC continuously broadens new horizons in sustainable development, making unremitting efforts to advance the construction of an ecological civilization that fosters the harmonious coexistence of humans and nature, among people, and between individuals and society.

Furthermore, through close collaboration with domestic and international institutions such as International Scientific Exchange Foundation of China and Aurora Borealis Foundation, SDC actively engages in the implementation and practice of the Belt and Road Initiative and the vision of building a community with shared future for mankind in Asia, Europe, and the Caribbean-Latin America regions.

SDC's primary work includes:

1. Organizing highly influential international conferences and events both domestically and internationally which are proactively responding to national policies and focusing on the theme of sustainable development, and establishing platforms for in-depth exchange and dialogue among relevant government departments, international organizations, civil society groups, think tanks, and enterprises.
2. Effectively communicating China's ecological civilization story, promoting the establishment of model cooperative projects, and deeply implementing the vision of building a community with shared future for mankind.
3. Strengthening SDC's own theoretical development and platform building, providing advanced sustainable development theory guidance to its broad membership and related cooperative initiatives, in order to offer practical support for the implementation of ecological project and contribute to the advancement of building a Beautiful China.

WWW.INNOVATIFPLUS.COM

Innovatif+ is a dynamic platform for a community of next-generation members and leaders from family business backgrounds. Our goal is to grow individually as well as collectively in shaping our own legacy while preserving our family values. Beyond your role and responsibilities, we care about your personal well-being and growth while navigating through the transition as well as the changes in the world.

We are a peer-to-peer network formed by members who understand the unique challenges faced by the next generation from similar backgrounds and regions.

Innovatif+ has organized numerous events and field trips across Asia, providing valuable opportunities for learning and growth. Within just a few years, we have hosted activities and field trips in Malaysia, Singapore, Thailand, Indonesia, Vietnam, the Philippines, and many other regions in Asia.

As future leaders of family businesses and custodians of family wealth, we are committed to learning about corporate and wealth structuring across different jurisdictions. Our aim is to create a positive impact on the world, fostering a legacy of innovation and leadership.

Vision

Empowering NextGen of family business leaders to sustain and elevate their heirloom enterprises, philosophy and family legacy to positively impact our world economically and socially.

EXECUTING ORGANISER & MAIN SPONSOR

WWW.ASIAGREENGROUP.COM

With over 21 years of trusted experience in property development, Asia Green Group has become a prominent and respected name in shaping Penang's urban landscape. Rooted in integrity, quality, and innovation, we have delivered award-winning residential and commercial projects that reflect our deep commitment to excellence and community well-being.

As we move forward, Asia Green Group is entering a new era – one that goes beyond traditional real estate. We are now leading the way in next-generation smart ecological civilisation development, pioneering future-ready townships that integrate technology, sustainability, culture, and wellness into harmonious living ecosystems.

Guided by a righteous heart and visionary mindset, our mission is to co-create purpose-driven communities that nurture life, respect nature, and empower humanity. Through our signature 3+X development model and the integration of the SISHENG (四生) framework – Life, Production, Ecology, and Community – we are redefining what it means to live well, live mindfully, and live connected.

Vision

To redefine real estate as a force for ecological harmony and purposeful living—leading the new era of development rooted in the 3+X model of Technology, Ecology, Art & Culture, and Wellness Living, and guided by the SISHENG (四生) framework of Life, Production, Ecology, and Community.

We aspire to be more than builders of spaces—we are creators of living ecosystems where people, nature, and innovation flourish together in balance. Through mindful design, sustainable values, and a deep respect for cultural and ecological heritage, Asia Green Group is shaping the future of living for generations to come.

HERITOUCH GALLERY

“There’s Always A Touching

Behind every artwork lies a unique story and a unique artist. We are not just an art gallery, we are an artist management corporation. We focus heavily on our artists and IP management, and we bridge art and conventional business activities together.

Heritouch Gallery serves as an exhibition space, an art trading platform and exclusive private club for art collectors.

In the fusion of art and commerce, we discover the essence of innovation and the soul of a brand, to magnify the intrinsic core values.

WWW.TRANSWARP.CN

Transwarp (Stock Code: 688031) aims to build enterprise-level big data and AI infrastructure software, to shape the future of data world. It provides enterprises with infrastructure software and services around the whole data lifecycle, including integration, storage, governance, modeling, analysis, mining and circulation.

Headquartered in Shanghai, Transwarp keeps regional head offices in Beijing, Nanjing, and Guangzhou. It sets support centers in Zhengzhou, Chengdu, as well as domestic offices in cities like Shenzhen and Xi'an, and overseas branches in Singapore and Canada. Transwarp focuses on technology research and development and has accumulated 31 core technologies in 6 aspects: distributed computing, SQL compilations, database technology, unification for multi-model data management, container-based cloud computing, and big data analytics and intelligence. After years of R&D, Transwarp has obtain over a hundred domestic and foreign invention patents, and has created its own software product matrix, including a one-stop big data platform (Transwarp Data Hub, TDH); a container-based cloud platform (Transwarp Data Cloud, TDC); distributed database (ArgoDB); a series of data development and data analytics tools (Transwarp Data Studio, TDS & Transwarp Sophon); knowledge platform and large language model operation platform (Transwarp Knowledge Hub, TKH & LLMOps).

Currently, Transwarp's products have been applied in more than a dozen industries with over 1,500 end users.

国家超级计算无锡中心
National Supercomputer Center in Wuxi

WWW.NSCCWX.CN

National Supercomputing Center in Wuxi

Established in 2016, the National Supercomputing Center in Wuxi is home to the "Sunway Taihu Light" supercomputer system, one of the world's most powerful computing platforms. It achieved the No. 1 ranking on the TOP500 list four consecutive times and received three Gordon Bell Prize nominations for groundbreaking applications, demonstrating its global leadership in high-performance computing.

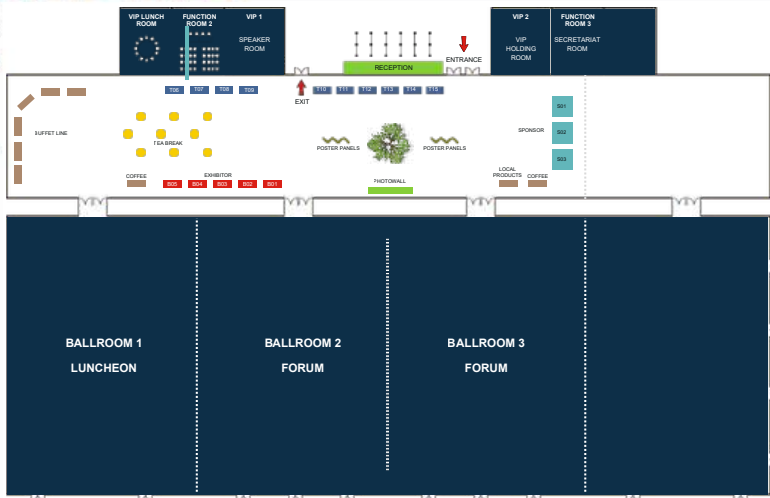

The center actively collaborates with domestic universities, research institutes, and industry partners to advance major national research initiatives and strategic application projects. These efforts have significantly enhanced China's capabilities in supercomputing applications, promoted interdisciplinary integration, and cultivated high-caliber talent in computational sciences. With the aim of expanding its international influence, the center is committed to becoming a world-class supercomputing hub driving innovation and collaboration.

WELCOME TO PENANG

Known as the “Pearl of the Orient”, Penang is a vibrant island state on the northwest coast of Malaysia. It is famous for its rich cultural heritage, historic architecture, world-class cuisine, and thriving creative energy. Whether you’re here for business or leisure, Penang offers a unique blend of tradition and modernity that makes every visit memorable.

GETTING AROUND PENANG

Grab App: The most convenient way to travel around Penang. Download the Grab app (Apple Store / Google Play) for rides, airport transfers, and food delivery.

Airport Transfer: SPICE Convention Centre is located just 10 minutes from Penang International Airport.

Local Exploration: Penang is best explored by Grab, but George Town’s UNESCO heritage area is perfect for walking tours.

HIGHLIGHTS OF PENANG

Char Kway Teow

Penang Asam Laksa

Teochew Cendol

Penang is Malaysia's food capital, with flavours shaped by Malay, Chinese, Indian, and Peranakan heritage. Here are some must-try dishes and recommended spots:

Char Kway Teow

Stir-fried flat noodles with prawns, cockles, bean sprouts, and eggs. Smoky, rich, and a Penang classic.

- Lorong Selamat Char Kway Teow (George Town)
- Siam Road Char Kway Teow (George Town)

Penang Asam Laksa

A tangy, spicy noodle soup with mackerel broth, tamarind, torch ginger flower, and mint. Ranked one of the world's top dishes.

- Air Itam Laksa (near Kek Lok Si Temple)
- Gurney Drive Hawker Centre

Teochew Cendol

Shaved ice dessert with green rice flour jelly, coconut milk, and palm sugar syrup—perfect for cooling down.

- Penang Road Famous Teochew Cendol (Lebuh Keng Kwee)
- Kek Seng Coffee Shop (George Town)

Nasi Kandar

Steamed rice served with an array of curries and side dishes—an Indian Muslim specialty unique to Penang.

- Line Clear Nasi Kandar (Penang Road, George Town)
- Deen Maju Nasi Kandar (Jelutong)

Other Local Favourites

- Hokkien Mee (prawn noodle soup) - Old Green House (Burma Road)
- Curry Mee - Sister's Curry Mee (Air Itam)
- Apom Manis (crispy thin pancakes) - Jalan Burma Apom Stall

Tip: Hawker centres like Gurney Drive, New Lane, and Chulia Street Night Market are great one-stop spots to try a variety of Penang favourites in one evening.

HIGHLIGHTS OF PENANG

Penang offers a unique mix of heritage, culture, and natural beauty. Here are some must-visit spots to explore during your stay:

Heritage & Culture

- George Town UNESCO World Heritage Site
 - Wander through colourful heritage streets filled with shophouses, clan houses, temples, churches, and world-famous street art.
- Khoo Kongsi Clan House
 - An elaborate Chinese clanhouse showcasing Penang's multicultural past.
- Pinang Peranakan Mansion
 - A beautifully restored heritage home that reflects the lifestyle of the Straits Chinese community.
- Blue Mansion (Cheong Fatt Tze Mansion)
 - An iconic indigo-blue heritage building with daily guided tours.

Nature & Scenic Views

- Penang Hill
 - A cool retreat with panoramic views of the island. Accessible by funicular train, with cafes and nature trails at the top.
- Kek Lok Si Temple
 - One of Southeast Asia's largest Buddhist temples, famous for its towering Kuan Yin statue and colourful lantern displays.
- Batu Ferringhi Beach
 - A popular beach stretch with water sports, sunset views, and a lively night market.

HOTEL PARTNERS

We are pleased to partner with leading hotels near the SPICE Convention Centre, offering comfort, convenience, and exclusive rates for Penang HanWang Forum 2025 participants.

Amari SPICE Penang

Directly connected to SPICE Convention Centre, Amari SPICE Penang is the most convenient choice for delegates. The hotel offers modern rooms, wellness facilities, and excellent dining options—perfect for both business and relaxation.

OLIVE TREE
HOTEL

Olive Tree Hotel

Just minutes away from SPICE Convention Centre, Olive Tree Hotel offers a warm and eco-friendly stay. With spacious rooms and modern amenities, it is well-suited for both corporate guests and leisure travellers.

Iconic Marjorie Hotel

Part of Marriott's Tribute Portfolio, Iconic Marjorie Hotel combines contemporary luxury with cultural charm. Located within short distance to the venue, it is ideal for delegates who want both comfort and premium lifestyle experiences.

- 1715 - 1800 **Closing Panel:** Purpose-Led Innovation: Scaling Social Enterprises in a Tech-Driven World
Moderator: Evelyn Chew
Panelists: Madiha Fuad, Kathryn Tan, Guo Bin
- 1800 - 1810 Closing Address by Organising Chairperson, Meeydz (Mei) Tan

SPEAKER PROFILES

YAB TUAN CHOW KON YEOW **PENANG CHIEF MINISTER**

As the Chief Minister of Penang, YAB Chow Kon Yeow has been central to the state's transformation into a hub of technology, sustainability, and cultural vibrancy. His administration continues to drive initiatives in innovation, infrastructure, and economic development while strengthening Penang's position as a regional leader in smart and sustainable growth.

YB TUAN FAHMI BIN ZAINOL

YB Fahmi bin Zainol is the Penang State Executive Councillor (EXCO) for Agrotechnology, Food Security and Cooperative Development and the elected State Assemblyman for Pantai Jerejak.

As a dynamic young leader and policymaker, YB Fahmi represents Penang's commitment to innovation, sustainability, and inclusive growth, making him a highly relevant voice to welcome international delegates. His portfolio directly reflects Penang's vision of building a resilient and future-ready state, aligning perfectly with the forum's theme of ecological civilization and eco-tech cities.

TS. NG KWANG MING **CHIEF EXECUTIVE OFFICER, DIGITAL PENANG**

Ts. Ng Kwang Ming is the CEO of Digital Penang, the state agency tasked with driving Penang's digital transformation. With a strong background in ICT and digital ecosystem development, he leads initiatives in smart city planning, talent development, and digital economy growth. His vision is to position Penang as a regional digital hub by nurturing innovation, fostering collaboration, and bridging opportunities between government, industry, and the community.

WEI LIU **CHAIRMAN SDC**

Liu Wei, known for his leadership in eco-civilisation, has steered the Beijing International Exchange Association's Sustainable Development Committee since 2017. He has organised major sustainability forums, including HanWang and Penang HanWang conferences, and spearheaded projects like eco-farms, communities, and education bases in Chengdu. A former fashion entrepreneur, Liu now dedicates his work to advancing ecological civilisation and community well-being.

SPEAKER PROFILES

GOGIELAN A/L NANTHA KUMAR
DEPUTY DIRECTOR, GREEN TECHNOLOGY AT MIDA

Mr. Gogielan Nantha Kumar holds a Bachelor and Master of Economics from the University of Malaya and has been with MIDA since 2005. He currently serves as Deputy Director of the Green Technology Division, where he evaluates incentives and expatriate applications for renewable energy, energy efficiency, and waste management. He also contributes to policy formulation, strategy reviews, and national budget proposals to advance Malaysia's green technology agenda.

YUANHAO SUN
FOUNDER & CEO, TRANSWARP

Yuanhao Sun is the founder of Transwarp, a leading data and AI solutions company in China. His company develops cutting-edge platforms that enable enterprises to harness the power of big data and artificial intelligence for transformation. Under his leadership, Transwarp has become a key player in shaping China's digital economy.

PROFESSOR LEONG YUEN YOONG
DIRECTOR, SUSTAINABILITY STUDIES AT THE UN SUSTAINABLE DEVELOPMENT SOLUTIONS NETWORK (ASIA)

Prof. Leong is a leading academic and practitioner in sustainability, currently serving as Director of Sustainability Studies with the UN Sustainable Development Solutions Network (Asia). His expertise spans implementing SDG frameworks, sustainable policy design, and cross-sector collaboration. Through his research and advisory work, he supports governments, businesses, and educational institutions in advancing sustainable development goals across Asia.

DR. ZHAO WENLAI
DEPUTY DIRECTOR, NATIONAL SUPERCOMPUTING CENTER IN WUXI

Dr. Zhao serves as Deputy Director of the National Supercomputing Center in Wuxi, home to some of the world's most advanced high-performance computing facilities. His work focuses on harnessing supercomputing power for scientific breakthroughs in AI, big data, and climate modelling. With his leadership, the Wuxi centre contributes to China's standing as a global leader in computational science and next-generation technology.

SPEAKER PROFILES

WU PENG
CHAIRMAN, CHAIRMAN OF BEIJING GLOBAL SAFETY TECHNOLOGY CO., LTD.

Wu Peng is Chairman of Beijing Global Safety Technology (BGST), a leader in public safety technology and disaster prevention solutions. He has played a key role in advancing safety standards and innovative risk management technologies in China. His work reflects a deep commitment to building resilient communities in an era of growing global challenges.

LAWRENCE CHONG
GROUP CEO, CONSULUS

Lawrence Chong is a global keynote speaker on innovation and intercultural dialogue, Group CEO of Consulus, and author of Creative Change. He has spoken in over 30 cities, addressing audiences of 30,000, and his thought leadership reaches more than 370,000 followers on LinkedIn. In 2020, he was appointed by Pope Francis to the Vatican's Dicastery for Interreligious Dialogue, and in 2024 he received the King Hussein Global Business and Intercultural Peace Award.

LI TAN
CO-FOUNDER & PARTNER, AUDACY

Li Tan is a seasoned investor and entrepreneur with over 20 years of experience spanning real estate, forestry, and sustainable investments. As co-founder of Audacy, she focuses on decarbonisation, clean energy, and sustainable growth across APAC. She also pioneered alternative assets by co-founding the world's first whisky private equity fund, delivering exceptional returns and expanding into global whisky ventures.

DR ALLINETTES ADIGUE
DIRECTOR ASEAN, GLOBAL REPORTING INITIATIVE (GRI)

Dr. Allinnettes "Ally" Adigue leads the ASEAN Hub of GRI, advancing sustainability reporting and policy adoption across Southeast Asia. She has lived and worked on three continents, bringing experience from government, academia, and the private sector. Holding a PhD in Public Policy from ANU and dual Master's degrees from Erasmus University and the LKY School of Public Policy, she has become a respected voice in climate change, sustainable business, and corporate governance.

SPEAKER PROFILES

MOHD FAIZAL BIN AB HAMID K.M.N
PRINCIPAL SENIOR ASSISTANT DIRECTOR,
NATIONAL DISASTER MANAGEMENT AGENCY (NADMA)

Mohd Faizal plays a pivotal role at Malaysia's National Disaster Management Agency, where he is responsible for shaping national policies and frameworks on disaster risk reduction. His portfolio covers crisis preparedness, emergency response coordination, and resilience building at both state and federal levels. With years of frontline experience, he contributes to strengthening Malaysia's overall disaster management capability, particularly in the face of climate-related risks.

CHRISTOPHER HUA
CO-FOUNDER, SHENZHEN SROD INDUSTRIAL GROUP CO., LTD

As Co-Founder of Shenzhen SROD Industrial Group, Christopher Hua has overseen the company's rise as an innovator in industrial equipment and smart technology solutions. Under his leadership, SROD has expanded its footprint across multiple markets, driving efficiency and modernisation in China's industrial sector. He continues to champion R&D investment and international partnerships that strengthen China's role in global industrial innovation.

MADIHA (MADDY) FUAD
FOUNDER & CEO, PLUSVIBES

Madiha Fuad is the Founder & CEO of PlusVibes, a healthtech platform that blends AI, therapy, and community support to improve mental health access. With over 60,000 users and 25,000+ therapy sessions facilitated, her work has redefined mental wellness in Malaysia and beyond. She has been recognised as ASEAN Women Entrepreneur of the Year, Malaysia's Top 30 Women of Excellence, and Women of the Future Global 50 Rising Star, and continues to advocate for empathy-driven innovation.

CHRIS CHOY KOK SENG
FOUNDER, FIFYO

Chris Choy has over 25 years of leadership experience across Asia Pacific, including transformation initiatives with Fortune 500 companies and as founder of FIFYO, an Industry 4.0 IoT venture delivering smart building efficiency. He is a trusted advisor in Smart Building certification, ESG training, and digital FM strategies, with global credentials in sustainability, AI, and ESG from institutions such as NUS, University Malaya, Wharton, and Stanford. His mission is to help building owners and industry leaders embrace smart, sustainable transformation through practical tools, training, and innovation.

SPEAKER PROFILES

GAI HONGKUN
TEAM LEADER OF FLOOD DISASTER TECHNICAL ANALYSIS OF
CHANG GUANG SATELLITE TECHNOLOGY CO.,LTD.

Gai Hongkun leads the flood disaster technical analysis team at Chang Guang Satellite Technology, a pioneer in China's commercial remote sensing satellite industry. His expertise lies in using satellite data to provide early warning systems, disaster monitoring, and post-disaster assessments. By integrating space technology with environmental management, his work supports governments and communities in building resilience to climate-related disasters.

DR NOAH SILVERMAN, PHD
FOUNDER, HELIOS.AI LTD

Dr. Noah Silverman is the founder of Helios.ai, a company integrating AI into healthcare to deliver better access and outcomes. His work bridges medicine, data science, and entrepreneurship, contributing to new solutions in health technology and innovation. He has been active internationally in promoting the role of AI in reshaping healthcare systems.

DR. KRIS SEE KE-SHYANG
MEDICAL DIRECTOR, OSEL GROUP

Dr. Kris See is a medical innovator with expertise in neurosurgery, genomic medicine, and longevity science. As Medical Director of Osel Group, he leads a network of clinics and research teams across Asia, focusing on anti-aging, genomics, and advanced therapies. He has published extensively, advised governments on healthcare futures, and was awarded an honorary doctorate for his pioneering contributions.

WANG XIANGBO
CEO, SYSWARE

Mr. Wang Xiangbo is an accomplished technology entrepreneur with over 35 years of leadership experience in large enterprises and international collaborations. He played a pivotal role in developing China's first aircraft engine and served as Vice President of the Aero Engine Group, overseeing marketing, listed companies, and global partnerships. Currently, he is the CEO of Sysware, focusing on mobile computing, wearable devices, IoT, and AI solutions for specialized industries.

SPEAKER PROFILES

DR TERESA CHUANG
EXECUTIVE VICE PRESIDENT,
SUSTAINABLE DEVELOPMENT COMMITTEE

Dr. Teresa Chuang combines a PhD in International Economic Law with over a decade of diplomatic and public service experience. Fluent in Chinese, English, and Spanish, she has organised global sustainability conferences, led international collaborations, and engaged with world leaders on ecological and economic development. She is known for her commitment to building cross-border partnerships for sustainability.

NICOLE MAH
POLICY AND PROJECT LEAD, ARUKAH

Nicole Mah is Policy and Project Lead at Arukah Capital, a Singapore-based carbon credit developer committed to generating high-quality and high impact projects. At Arukah, she focuses on project development for agricultural waste-to-energy projects in the Global South. Arukah wants to set a new industry benchmark by sharing 50% of gross carbon credit revenues directly with smallholder farmers, and ensuring that all project data is tracked in real time.

EVELYN CHEW
FOUNDER, MOA DIGITAL MEDIA

Evelyn Chew is the founder of MOA Digital Media, a storytelling agency that helps CEOs and brands build influence through strategic video content. Her campaigns for clients such as IKEA, Toyota, and the Singapore Government have set benchmarks in authentic branding. A Spirit of Enterprise Award winner, she advocates for blending sustainability, AI, and creativity to inspire markets.

DR. HANAFIAH YUSOFF
FOUNDER AND GROUP CEO, ROBOPRENEUR

Dr. Hanafiah Yusoff is the Founder and Group CEO of Robopreneur Sdn Bhd, with over 20 years of experience in robotics, AI, IT, and automation. A former academic turned entrepreneur, he has driven Robopreneur's rapid growth since 2015 through innovative solutions and sustained 20-30% annual revenue growth. His achievements have earned him more than 15 awards, including EY Entrepreneur of the Year and the ASEAN Deep Tech Award, cementing his reputation as a leading tech innovator in the region.

SPEAKER PROFILES

GUO BIN
CHAIRMAN, HUNAN HANENG TECHNOLOGY

Mr. Guo Bin, Chairman of Hunan Haneng Technology, has nearly 30 years of experience in aero-engine and gas turbine test equipment, leading groundbreaking projects including China's only high-altitude power test platform and advanced facilities for top research institutes and universities. Beyond his technical and business achievements, he serves as Vice President of the Beijing Zhuzhou Chamber of Commerce and is deeply committed to corporate social responsibility. Under his leadership, Hunan Haneng has championed philanthropy and sustainability, from pandemic relief efforts to community infrastructure improvements and ongoing support for disadvantaged groups, integrating business success with social impact.

KATHLYN TAN
PRINCIPLE & DIRECTOR, RUMAH GROUP & FOUNDATION

Kathlyn Tan is an environmental advocate, philanthropist, and investor dedicated to marine conservation and sustainability. As Director of RUMAH Group & Foundation, she supports initiatives that protect biodiversity, empower communities, and encourage responsible investment. Her work reflects a deep personal commitment to a more sustainable and resilient future.

CHRIS ZHENG
REGIONAL DIRECTOR (CHINA), GREEN WAVE FZE

Chris Zheng is the Regional Director (China) for Green Wave FZE, a Dubai-based infrastructure firm with over 1,400 MW of renewable energy projects worldwide. Since 2017, he has also served on the Beijing International Exchange Association Sustainable Development Committee, facilitating international collaboration on sustainability initiatives. With expertise in renewable energy, space technology, and sustainable housing, Chris focuses on bridging Chinese innovation with opportunities across South Asia and the MENA region.

MEEYDZ (MEI) TAN
CEO, ASIA GREEN GROUP

As the CEO and second-generation leader of Asia Green Group, she leads efforts to reimagine urban development by integrating sustainability, technology, and cultural values into regenerative communities. She is also the co-founder of One Haven, a wellness-centric living model, and the organising chairperson of the Penang International Hanwang Forum, a platform uniting global leaders in governance, tech, sustainability, art, and wellbeing. In addition, she established InnovatifPlus NextGen Leaders to nurture Asia's future changemakers, reflecting her mission to shape not only sustainable cities but also the soul of future society.

SILENT AUCTION PAINTINGS

Malaysia Contemporary Artist
BEN CHONG Rebuild The Nature, 2025

Mixed Media On Canvas 120cm x 90cm

Nature is not a miracle created by us, it is the origin we are meant to protect. To rebuild nature is, in truth, to rebuild ourselves. Nature has never needed saving by humankind. What it needs is for us to stop the destruction, and instead offer hearts that protect.

This painting symbolizes a blueprint for a new civilization one where humans are no longer the "destroyers" of nature, but its collaborators.

A future where technology becomes a tool to safeguard nature, achieving true harmony between growth and coexistence.

RM 18,800

Malaysia Contemporary Artist
BEN CHONG Inner Peace, 2025

Mixed Media On Canvas 91cm x 91cm

True freedom isn't about how much you have, it's about a mind undisturbed.

RM 13,800

Malaysia Contemporary Artist
NICHOLAS CHOONG Ambitious, 2022

Mixed Media On Board 69cm x 69cm

An ambitious lady turns those dreams into action with fire in her soul and purpose in her steps.

RM 6,800
